LIFE'S SO MUCH BETTER WITH A WATER SOFTENER

A very warm welcome from all of us at Scott Jenkins Water Softeners, the south-east of England's No.1 choice for water softeners and drinking water systems. We are a long-established business and our mission is to inform everyone about the wonderful benefits soft water provides.

Water softeners bring so many improvements to our everyday lives – from washing to cooking, to the heating and cleaning of our homes. Once you've tried soft water, you definitely won't want to return to the bad old days of hard water!

Here's what you can look forward to, now that soft water is flowing through your taps and shower heads:

- Improved energy efficiency and big savings on bills
- No more dry skin
- Lustrous, easy-to-style hair
- Longer-lasting appliances and pristine pipework
- Soft, consistently vibrant laundry
- Cut back on cleaning and costly cleaning products
- Better tasting cuppas and the option of purified drinking water
- Lots more bubbles in the bath
- And a home that positively sparkles

When you live in a hard water area, soft water is a salvation.

MAINTAINING A HEALTHY WATER SOFTENER IS VERY COST EFFECTIVE

Regular maintenance of your new water softener is essential for ensuring that it remains in first-class condition round the clock. That's why early detection of any issues is the best way to keep everything in great working order.

Our second-to-none servicing option is tailored to be both flexible and extremely cost effective – always putting you and your water softener first.

Our Annual Service Plans include:

- An efficiency check
- A thorough resin clean
- Removing iron, dirt, silt, organics and biofilms
- A by-pass check
- An overflow/warning pipe test to spot any blockages

To discuss the best option for you or to book your annual service, contact us on 01243 607494 or scott@sjbs.info

MOLLIVITA WATER SOFTENERS

The MolliVita Water Softener provides a permanent soft water system for your home.

Once you've purchased your MolliVita, as long as you keep up your monthly £9.99 payment to cover the costs of repair and replacement, should your MolliVita Water Softener ever break down or need repairing, we will replace it – **FREE OF CHARGE.**

There's no other water softener deal that comes close.

EXPAND YOUR WATER KNOWLEDGE

Ever wondered what hardens water, how a water softener works, why salt is essential for keeping your system running properly, or the ways soft water can improve your health and well-being?

Well, we've got all the answers! We have a Useful Info [Blog](#) – tab on our website, which is full of informative articles and videos, explaining everything you need to know in glorious detail.

For advice, tips, technical info and quirky facts on all things soft water-related, head there, or use the search bar.

VISIT THE

DELIGHTED WITH YOUR WATER SOFTENER? WE'D LOVE YOUR FEEDBACK!

We hope that you're absolutely delighted with your new water softener and the benefits it will bring to your life.

If everything has worked out perfectly, then why not leave a review on Google or Checkatrade. Long or short, feedback is always greatly appreciated – it really helps us to spread the word and fine tune the service we provide.

IT PAYS TO REFER A FRIEND

We love getting referrals. In fact, around 70% of our business comes via personal recommendation – for which we are extremely grateful. So much so, that if you refer a friend or family member, we'll certainly make it worth your while.

Should they proceed with purchasing a water softener through SJ Water Softeners – even before we've carried out the installation – as a 'thank you', we'll supply you and the person/or persons you have referred, with one year's worth of free salt, whatever the annual usage.

And that's not all.

Since this is an unlimited offer, once you're fully stocked with salt, every time you recommend a new customer, we'll provide you with filters, M&S vouchers or a choice of products from our shop. And on it goes with every referral. Your continued support will always be recognised.
